

# MMR MOTORCYCLE REQUIREMENTS

The Mezcal Moto Rally is a 1300 mile rally race. Rally challenges will direct riders through multiple types of terrain, such as blacktop, gravel, cobblestone and sand. The temperatures and elevations will vary greatly, from sea level to 1900 feet above sea level. Though experience and skill are the primary factors for successfully participating in the MMR, a capable motorcycle is also necessary. MMR organizers require that your motorcycle meet the following criteria:

- At least 600cc
- Mountable luggage system
- Equipped with tool kit
- Fuel injected
- 150 mile minimum fuel range
